## **NAME**

teckit\_compile - manual page for command line error at --version

## **SYNOPSIS**

**teckit\_compile** [-u] [-x] [-z] mapping\_description [-o compiled\_table]

## **OPTIONS**

Required argument:

source mapping description (.map) file

Optional arguments:

- **−o**file output compiled table (.tec) file ("−" for stdout)
- -u read source text as UTF8 even if no BOM found
- -x generate XML representation rather than compiled table
- **−z** generate uncompressed table format

## **Further Information**

For further information see the document TECkit\_Tools.pdf. A description of the mapping description language used by the compiler, with examples, is found in TECkit\_Language.pdf. On a Debian system, these can be found in /usr/share/doc/teckit.
